Howell Public Schools (HPS) has studied the work of Dr. Robert Marzano and other educational consultants. In Marzano's book *What Works in Schools: Translating Research into Action*, the author points to the necessity of school districts having a "guaranteed and viable curriculum." Marzano stresses the importance of everyone in the school community understanding what skills will be taught for mastery at each grade level, and then guaranteeing that happens. Using this research, our district has undertaken the task of creating an aligned curriculum that prepares students to successfully meet the academic rigors of Michigan's Grade Level Content Expectations (GLCEs), as well as the new national Common Core Standards. The timeline of our Scope & Sequence development is as follows:

2008-09

Small groups of teachers worked under the guidance of curriculum consultants and HPS administrators to study the core content curriculums of English, math, science and social studies. Through professional development efforts, these groups learned to identify subsets of fundamental, non-negotiable content expectations that require a higher degree of mastery than the other expectations within the content area. HPS has chosen to call these fundamental, non-negotiable content expectations for each grade level subject "Essential Skills". Expectations that were not considered fundamental to the success of all students are not included in this document, but may be found on the MDE web site at http://www.michigan.gov/mde/0,1607,7-140-28753_33232---,00.html

Teacher groups then assigned a recommended number of lessons, per quarter, needed to successfully teach each GLCE, thus securing the curriculum as viable. Vocabulary, a researched component to uniform student achievement, was identified by quarter (nine-week sessions). Examples of formative assessments were provided for each expectation, with the creation of uniform summative assessments to follow the final approval of this document. Upon completion of draft essential skills for each subject, the teacher groups used supporting MDE documents to align their chosen skills horizontally for grades kindergarten through eight. These documents were then published in August 2009.

2009-2011

Teachers of the elective classes (Art, Music, Technology, Physical Education, Consumers Science, World Language, etc.) began creating Scope & Sequence documents for their subjects in 2009. The Michigan Department of Education (MDE) did not initially provide standards for most of these subjects, so these teachers looked to national standards as their guide. Later, as time went on, the MDE began releasing K-8 aligned standards that our teachers began incorporating. Finished documents began materializing in the spring of 2011, with a goal of each subject having a Scope & Sequence by the summer of 2012. Please Note: Elective teachers at the elementary see students approximately one day a week, so the Scope & Sequences for these subjects are relatively short compared to secondary elective teachers who see students daily for either a quarter, a semester or a year long experience.
