

PowerSchool Parent Portal/App Instructions

If you have not created a custom username and password you will need to now.

Your previous user name and password that was given to you will not work in the top portion of the log-in.

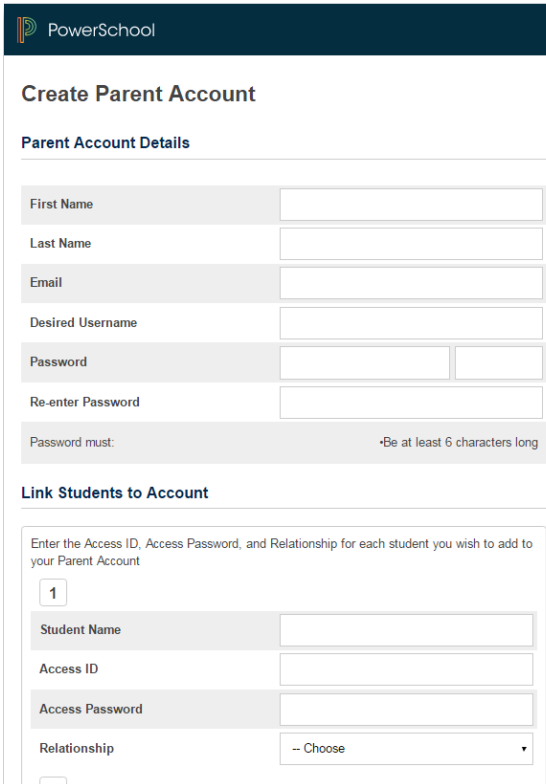

PowerSchool now has Single sign-on. This will allow you to login once and view all of you children's PowerSchool accounts. On your first login you will need to set it up. Below are the instructions.

Step 1 – You will need to create a parent account by clicking on the “Create Account” Tab.

Step2 – Enter your information and each of you children's information.

You will need your student(s) Parent user ID **In UPPER CASE** and password.

Name - Your first and last name

Email - Student notifications and correspondence related to your parent/guardian account will be sent to this email.

Desired User Name - Your user name is your unique PowerSchool identity

Password - Your password must be at least 6 characters long

Student Access Information - Information for a minimum of one student. This includes the **Access ID and Access Password** for each student, and your relationship to the student. **The Access ID is case sensitive.** [Once you have created]

Once this is completed you will be directed back to a login screen where you will use your new login and password that you just created. After logging in you will see the main screen. Across the top you will see a tab for each child.

New PowerSchool App!

You can download the free PowerSchool App on your phone. Go to the App Store or Play Store depending if you have an iPhone or an Android. Search for PowerSchool. Select PowerSchool Mobile app. After you have loaded the app you will need the District code **DZJR** and the login that you just created above.
